YUANTA FUTURES CO., LTD. AND SUBSIDIARIES
CONSOLIDATED FINANCIAL STATEMENTS AND REVIEW REPORT OF INDEPENDENT ACCOUNTANTS
MARCH 31, 2019 AND 2018

REVIEW REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

PWCR19000014

To the Board of Directors and Stockholders of Yuanta Futures Co., Ltd.

Introduction

We have reviewed the accompanying consolidated balance sheets of Yuanta Futures Co., Ltd and subsidiaries (the "Group") as at March 31, 2019 and 2018, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the three months then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with "Regulations Governing the Preparations of Financial Reports by Futures Commission Merchants", "Regulations Governing the Preparations of Financial Reports by Securities Firm" and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

We conducted our reviews in accordance with the Statement of Auditing Standards No. 65 "Review of Financial Information Performed by the Independent Auditor of the Entity" in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2019 and 2018, and of its consolidated financial performance and its consolidated cash flows for the three months then ended in accordance with "Regulations Governing the Preparations of Financial Reports by Futures Commission Merchants", "Regulations Governing the Preparations of Financial Reports by Securities Firm" and International Accounting Standard 34, "Interim Financial Reporting" as endorsed by the Financial Supervisory Commission.

Lo, Chiao-Sen Lee, Hsiu-Ling For and on behalf of PricewaterhouseCoopers, Taiwan

May 2, 2019

The accompanying consolidated financial statements are not intended to present the financial position and results of operations and cash flows in accordance with accounting principles generally accepted in countries and jurisdictions other

than the Republic of China. The standards, procedures and practices in the Republic of China governing the audit of such financial statements may differ from those generally accepted in countries and jurisdictions other than the Republic of China. Accordingly, the accompanying consolidated financial statements and report of independent accountants are not intended for use by those who are not informed about the accounting principles or auditing standards generally accepted in the Republic of China, and their applications in practice.

As the financial statements are the responsibility of the management, PricewaterhouseCoopers cannot accept any liability for the use of, or reliance on, the English translation or for any errors or misunderstandings that may derive from the translation.

YUANTA FUTURES CO., LTD. AND SUBSIDIARIES NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS MARCH 31, 2019 AND 2018

(Expressed in Thousands of New Taiwan dollars, Unless Otherwise Indicated) (Unaudited)

1. HISTORY AND ORGANIZATION

Yuanta Futures Co., Ltd.'s (the "Company") and its subsidiaries' (collectively referred herein as the "Group") profile is described below:

- (1) The Company was incorporated as a company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C.) and started its operations on April 9, 1997. The Company merged with "Refco Taiwan Co., Ltd." on September 1, 2003 and was renamed as "Polaris Refco Futures Co., Ltd.". As of 2005, on account of changes in foreign shareholders, an extraordinary shareholders' meeting was held on February 15, 2006, and resolved to change its name to "Polaris MF Futures Co., Ltd." as approved by the Ministry of Economic Affairs.
 - On October 6, 2011, the Board of Directors of Polaris MF Futures Co., Ltd. decided to merge with Yuanta Futures Co., Ltd. In relation to the share conversion with Yuanta Futures Co., Ltd. in accordance with Gin-Gwen-Zheng-Qi Letter No. 1000052507, the Company can exchange its common shares using a ratio of 1.01 share to 1 share of Yuanta Futures common share. Both parties agreed to set April 1, 2012 as the merger date. The Company has also obtained the approval to change its name to "Yuanta Futures Co., Ltd."
- (2) The Group is primarily engaged in onshore and offshore futures brokerage business, futures dealing, futures consulting, futures business management, securities dealing, leverage transaction merchant, and a variety of futures related businesses approved by the competent authority. On August 14, 2017, with permission from the competent authority, the Group ceased engaging in futures business management. As of March 31, 2019, the Company had 4 branches.
- (3) As of March 31, 2019 and 2018, the Group had 397 and 394 employees, respectively.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These consolidated financial statements were reported to the Board of Directors on May 2, 2019.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC").

New standards, interpretations and amendments endorsed by the FSC effective from 2019 are as follows:

| | Effective date by |
|--|--------------------------|
| | International Accounting |
| New Standards, Interpretations and Amendments | Standards Board |
| Amendments to IFRS 9, 'Prepayment features with negative | January 1, 2019 |
| compensation' | |
| IFRS 16, 'Leases' | January 1, 2019 |
| Amendments to IAS 19, 'Plan amendment, curtailment or settlement' | January 1, 2019 |
| Amendments to IAS 28, 'Long-term interests in associates and joint | January 1, 2019 |
| ventures' | |
| IFRIC 23, 'Uncertainty over income tax treatments' | January 1, 2019 |
| Annual improvements to IFRSs 2015-2017 cycle | January 1, 2019 |

Effective data by

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

IFRS 16, 'Leases'

- A. IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognise a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.
- B. The Group has elected to apply IFRS 16 by not restating the comparative information (referred herein as the 'modified retrospective approach') when applying "IFRSs" effective in 2019 as endorsed by the FSC. Accordingly, the Group increased 'right-of-use asset' by \$57,259 and increased 'lease liability' by \$57,259 on January 1, 2019.
- C. The Group has used the following practical expedients permitted by the standard at the date of initial application of IFRS 16:
 - (A) Reassessment as to whether a contract is, or contains, a lease is not required, instead, the application of IFRS 16 depends on whether or not the contracts were previously identified as leases applying IAS 17 and IFRIC 4.
 - (B) The accounting for operating leases whose period will end before December 31, 2019 as short-term leases and accordingly, rent expense of \$3,176 was recognised in the 1st quarter of 2019.
 - (C) The exclusion of initial direct costs for the measurement of 'right-of-use asset'.
 - (D) The use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.
- D. The Group calculated the present value of lease liabilities by using the weighted average incremental borrowing interest rate range from 0.78% to 0.92%.
- E. The Group recognised lease liabilities which had previously been classified as 'operating leases' under the principles of IAS 17, 'Leases'. The reconciliation between operating lease commitments under IAS 17 measured at the present value of the remaining lease payments, discounted using

the lessee's incremental borrowing rate and lease liabilities recognised as of January 1, 2019 is as follows:

| Operating lease commitments disclosed by applying IAS 17 as at | | |
|--|----|------------|
| December 31, 2018 | \$ | 68,695 |
| Add: Lease payable recognised under finance lease by | | |
| applying IAS 17 as at December 31, 2018 | | - |
| Less: Short-term leases | (| 10,518) |
| Add: Lease contracts previously identified as service | | |
| agreements | | - |
| Less: Contracts reassessed as service agreements | (| 464) |
| Add/Less: Adjustments as a result of a different treatment of | | |
| extension and termination options | | - |
| Add/Less: Adjustments relating to changes in the index or rate | | |
| affecting variable lease payments | | _ |
| Total lease contracts amount recognised as lease liabilities by applying | | |
| IFRS 16 on January 1, 2019 | | 57,713 |
| Incremental borrowing interest rate at the date of | | |
| initial application | | 0.78~0.92% |
| Lease liabilities recognised as at January 1, 2019 by applying IFRS 16 | \$ | 57,259 |

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

None.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

| | Effective date by |
|---|------------------------------------|
| | International Accounting |
| New Standards, Interpretations and Amendments | Standards Board |
| Amendments to IAS 1 and IAS 8, 'Disclosure Initiative-Definition of | January 1, 2020 |
| Material' | |
| Amendments to IFRS 3, 'Definition of a business' | January 1, 2020 |
| Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets | To be determined by |
| between an investor and its associate or joint venture' | International Accounting |
| IFRS 17, 'Insurance contracts' | Standards Board January 1, 2021 |

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants", "Regulations Governing the Preparation of Financial Reports by Securities Firms", and the International Accounting Standard 34, "Interim financial reporting" as endorsed by the FSC.

(2) Basis of preparation

- A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
 - (A)Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (B)Financial assets at fair value through other comprehensive income.
 - (C)Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.

(3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
 - (A)All subsidiaries are included in the Group's consolidated financial statements. Subsidiaries are all entities (including structured entities) controlled by the Group. The Group controls an entity when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Group obtains control of the subsidiaries and ceases when the Group loses control of the subsidiaries.
 - (B)Inter-company transactions, balances and unrealised gains or losses on transactions between companies within the Group are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Group.
- B. Subsidiaries included in the consolidated financial statements:

| | | | Ownership (%) | | | | | | |
|------------------------------------|--|---------------------------------|------------------------|--|-------------------|--------|--|--|--|
| Name of investor | Name of subsidiary | Main business activities | March 31, 2019 Note | | December 31, 2018 | Note | | | |

| The Company | SYF Information Limited | Information technology services | | | 100 | | | | |
| SYF Information Limited | SYF Information (Samoa) Limited | Investment holding | | | 100 | | | | |
| SYF Information (Samoa) Limited | SYF Information (Shanghai) Limited | Information technology services | | | 100 | | | | |

Note 1: The Company increased the capital of the subsidiary by \$537,972 in 2018.

- C. Subsidiaries not included in the consolidated financial statements: None.
- D. Adjustments for subsidiaries with different balance sheet dates: None.
- E. Significant restrictions: None.
- F. Subsidiaries that have non-controlling interests that are material to the Group: None.

(4) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan dollars, which is the Company's functional and the Group's presentation currency.

A. Foreign currency transactions and balances

- (A)Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- (B)Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.

- (C)Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the consolidated balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the consolidated balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- (D)Foreign exchange gains and losses are presented in the consolidated statement of comprehensive income within 'other gains and losses'.

B. Translation of foreign operations

The operating results and financial position of all the group entities and associates that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (A)Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that consolidated balance sheet;
- (B)Income and expenses for each consolidated statement of comprehensive income are translated at average exchange rates of that period; and
- (C)All resulting exchange differences are recognised in other comprehensive income.

(5) Classification of current and non-current items

- A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (A)Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (B)Assets held mainly for trading purposes;
 - (C)Assets that are expected to be realised within twelve months from the balance sheet date;
 - (D)Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to settle liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (A)Liabilities that are expected to be settled within the normal operating cycle;
 - (B)Liabilities arising mainly from trading activities;
 - (C)Liabilities that are to be settled within twelve months from the balance sheet date;
 - (D)Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the consolidated balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

(6) Cash and cash equivalents

Cash and cash equivalents include petty cash, checking accounts, demand deposits and short-term highly liquid investments that are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value.

(7) Financial assets at fair value through profit or loss

- A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income. Financial assets at amortised cost or fair value through other comprehensive income are designated as at fair value through profit or loss at initial recognition when they eliminate or significantly reduce a measurement or recognition inconsistency.
- B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Group recognises the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(8) Financial assets at fair value through other comprehensive income

- A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Group has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income.
- B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs. The Group subsequently measures the financial assets at fair value:
 - The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(9) Financial assets at amortised cost

- A. Financial assets at amortised cost are those that meet all of the following criteria:
 - (A)The objective of the Group's business model is achieved by collecting contractual cash flows.
 - (B)The assets' contractual cash flows represent solely payments of principal and interest.
- B. On a regular way purchase or sale basis, financial assets at amortised cost are recognised and derecognised using trade date accounting.
- C. At initial recognition, the Group measures the financial assets at fair value plus transaction costs.

Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognised in profit or loss when the asset is derecognised or impaired.

(10) Margin deposits

In accordance with the Rules Governing Futures Commission Merchants, margin deposits accounts refer to the guarantee deposits and premiums collected from the futures customers, and the spread is calculated based on daily market price.

(11) <u>Futures traders' equity / Futures trading margin receivable</u>

Futures traders' equity is the trading margin/premiums deposited by customers and the difference of daily close-market balance. Futures traders' equity is shown under current liabilities. It cannot be offset except for the same customer with the same category of accounts. If payable to customer does not occur, it should be classified as futures trading margin receivable.

(12) Leverage margin contract trading client margin deposits

In accordance with the Regulations Governing Leverage Transaction Merchants, margin deposits accounts refer to the guarantee deposits and premiums collected from the leveraged trader, and the difference of daily evaluation.

(13) Leverage margin contract transaction traders' equity

Leverage contract transaction traders' equity is the trading margin/premiums deposited by customers and the difference of daily evaluation. Leverage contract transaction traders' equity is shown under current liabilities.

(14) Accounts receivable

- A. Accounts receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(15) Impairment of financial assets

For financial assets at amortised cost, margin deposit, futures trading margin receivables, Security borrowing deposits, accounts receivable, other receivables, leverage margin deposit, operation guarantee deposits, settlement fund, and refundable deposits, at each reporting date, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts.

(16) Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(17) Property and equipment

A. Property and equipment are initially recorded at cost. Borrowing costs incurred during the

construction period are capitalised.

- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.
- C. Equipment applies cost model and is depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, "Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of various fixed assets are 3~6 years except for building, which have useful lives from 10~60 years.

(18) <u>Leasing arrangements (lessee) — right-of-use assets/ lease liabilities</u>

Effective 2019

- A. Leases are recognised as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Group. For short-term leases or leases of low value assets, lease payments are recognised as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate. Lease payments are comprised of the following:
 - (a) Fixed payments, less any lease incentives receivable; and
 - (b) Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The Group subsequently measures the lease liability at amortised cost using the interest method and recognises interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognised as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:
 - (a) The amount of the initial measurement of lease liability;
 - (b) Any lease payments made at or before the commencement date; and
 - (c) Any initial direct costs incurred by the lessee

The right-of-use asset is measured subsequently using the cost model and is depreciated from

the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognised as an adjustment to the right-of-use asset.

(19) Leased assets/ leases (lessee)

Effective 2018

Payments made under an operating lease (net of any incentives received from the lessor) are recognised in profit or loss on a straight-line basis over the lease term.

(20) <u>Intangible assets</u>

A. Membership in a foreign Futures Exchange

Membership in a foreign Futures Exchange is stated at acquisition cost and regarded as having an indefinite useful life as it was assessed to generate continuous net cash inflow in the foreseeable future. Membership in a foreign Futures Exchange is not amortised, but is tested annually for impairment.

B. Computer software

Computer software is stated at cost and amortised on a straight-line basis over its estimated useful life of 3 years.

(21) Impairment of non-financial assets

- A. The Group assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.
- B. The recoverable amounts of intangible assets with an indefinite useful life shall be evaluated periodically. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

(22) Derivative financial instruments and non-hedging activities

Non-hedging derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value. Any changes in the fair value are recognised in profit or loss.

(23) <u>Financial liabilities at fair value through profit or loss</u>

A. Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorised as financial liabilities held for trading unless they are designated as hedges. Or financial liabilities at fair value through profit or loss. Financial liabilities that meet one of the following criteria are designated as at fair value through profit or loss at initial recognition:

- (A)Hybrid (combined) contracts; or
- (B) They eliminate or significantly reduce a measurement or recognition inconsistency; or
- (C)They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management policy.
- B. At initial recognition, the Group measures the financial liabilities at fair value plus transaction costs. The Group subsequently measures these financial liabilities at fair value with any gain or loss recognised in profit or loss.

(24) <u>Derecognition of financial liabilities</u>

A financial liability is derecognised when the obligation under the liability specified in the contract is discharged or cancelled or expires.

(25) Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

B. Pensions

(A)Defined contribution plans

For defined contribution plans, the Group pays fixed contributions to an independent, publicly or privately administered pension fund. The Group has no further legal or constructive obligations once the contributions have been paid. The contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

(B)Defined benefit plans

- a. A defined benefit plan is a pension plan that is not a defined contribution plan. Typically defined benefit plans define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Group in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of government bonds (at the consolidated balance sheet date).
- b. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
- c. Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. And, the related information is disclosed accordingly.

(C)Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Group's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Group recognises expense as it can no longer withdraw an offer of termination benefits or it recognises relating restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

(D)Employees' and directors' and supervisors' remuneration

Employees' remuneration and directors' and supervisors' remuneration are recognised as expense and liability, provided that such recognition is required under legal or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.

(26) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred income tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is provided on temporary differences arising on investments in associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognised only to the extent that it is probable that future taxable

profit will be available against which the temporary differences can be utilised. At each consolidated balance sheet date, unrecognised and recognised deferred income tax assets are reassessed.

- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.
- F. The interim period income tax expense is recognised based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.
- G. If a change in tax rate is enacted or substantively enacted in an interim period, the Group recognises the effect of the change immediately in the interim period in which the change occurs. The effect of the change on items recognised outside profit or loss is recognised in other comprehensive income or equity while the effect of the change on items recognised in profit or loss is recognised in profit or loss.

(27) <u>Dividends</u>

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities.

(28) Revenue recognition

- A. Brokerage fee income: Service fee income that is generated from futures merchants exercising futures transaction is recognized on the date of settlement.
- B. Security commission revenue: Commission revenues that are generated from the operation of securities introducing broker business by futures commission merchants. These income are recognised on an accrual basis under the agreed terms.
- C. Entrusted clearing settlement service fee: Service fee income that is generated by future merchants who has the qualification of clearing membership while exercising clearing settlement transaction is recognised on the date of futures transaction.

D. Derivative instrument net income

- (A)Futures contract gains or losses: The margin of futures trading is recognized at cost and measured through mark-to-market accounting. The gains or losses from mark-to-market, reversed futures trading or settled contracts are recognized as gains or losses in the current period.
- (B)Options trading: The deposit of options trading is recognized at cost and assessed monthly through mark-to-market valuation before the obligation is fulfilled. Any gain and loss occurring due to the option exercise is recognized as gain and loss in the period.

- E. Futures management fees revenues, supervisory income and brokerage income: These incomes are recognized on an accrual basis under the agreed terms.
- F. Interest income: All of the interest income of financial instruments are calculated using the effective interest rate.

(29) Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision-Maker. The Chief Operating Decision-Maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. <u>CRITICAL ACCOUNTING JUDGEMENT, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY</u>

The preparation of the consolidated financial statements requires management to make critical judgements in applying the Group's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) Evaluation of expected credit loss on futures trading margin receivable

The impairment assessment of the Group's futures trading margin receivable is based on subjective judgements, including whether there has been significant increase in credit risk since initial recognition and loss rates calculated from historical data. Therefore, the Group periodically examines the appropriateness of its estimates. Please refer to Note 20(6) for more information.

(2) Financial assets—fair value measurement of unlisted stocks without active market

The fair value of unlisted stocks held by the Group that are not traded in an active market is determined considering those companies' recent funding raising activities and technical development status, fair value assessment of other companies of the same type, market conditions and other economic indicators existing on balance sheet date. Any changes in these judgements and estimates will impact the fair value measurement of these unlisted stocks. Please refer to Note 20(3) for the financial instruments fair value information.

(3) Calculation of net defined benefit liabilities

When calculating the present value of defined pension obligations, the Group must apply judgements and estimates to determine the actuarial assumptions on balance sheet date, including discount rates and future salary growth rate. Any changes in these assumptions could significantly impact the carrying amount of defined pension obligations. Please refer to Note 6(12).

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

| | March 31, 2019 | | December 31, 2018 | | Ma | arch 31, 2018 |
|--|----------------|-----------|-------------------|-----------|----|---------------|
| Petty cash | \$ | 109 | \$ | 109 | \$ | 104 |
| Cash in bank | | | | | | |

| - | \$ | 188,364 | \$ | 157,371 | \$ | 60,648 |

B. Futures

The Group entered into futures contracts to earn the spread. As of March 31, 2019, December 31, 2018 and March 31, 2018, margin deposits for the contract was \$437,375, \$422,399 and \$378,967, respectively, with excess margin of \$288,790, \$290,131 and \$340,547, respectively, recognized

in "cash and cash equivalents".

C. The Group has no financial assets at fair value through profit or loss pledged to others.

(3) Margin deposits /Futures traders' equity

| | March 31, 2019 | | Dec | <u>December 31, 2018</u> | | rch 31, 2018 |
|------------------------------------|----------------|------------|-----|--------------------------|----|--------------|
| Margin deposits by customers: | | | | | | |
| Cash in banks | \$ | 48,122,846 | \$ | 46,847,577 | \$ | 38,708,159 |
| Clearing house | | 7,051,208 | | 7,494,673 | | 7,690,712 |
| Other futures commission merchants | | 11,967,042 | | 10,198,366 | | 6,804,346 |
| Total | | 67,141,096 | | 64,540,616 | | 53,203,217 |
| Gain: Others | | - | | 1 | | - |
| Less: Fees and interest revenue | | | | | | |
| pending for transfer | (| 174,966) | (| 176,480) | (| 200,305) |
| Futures exchange tax | | | | | | |
| pending for transfer | (| 4,560) | (| 4,392) | (| 1,050) |
| Temporary receipts | (| 4,254) | (| 6,785) | (| 4,158) |
| Others | (| 39,931) | (| 20,201) | (| 17,282) |
| Futures traders' equity | \$ | 66,917,385 | \$ | 64,332,759 | \$ | 52,980,422 |

- A. The Group has no expected credit loss on margin deposits.
- B. As at March 31, 2019, December 31, 2018 and March 31, 2018, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the margin deposits held by the Group was \$67,141,096, \$64,540,616 and \$53,203,217, respectively.

(4) Futures trading margin receivable

| | Marc | eh 31, 2019 | Decen | nber 31, 2018 | M | arch 31, 2018 |
|---|------|-------------|-------|---------------|----|---------------|
| Futures trading margin receivable Less: Allowance for uncollectible | \$ | 87,430 | \$ | 90,158 | \$ | 107,348 |
| accounts | (| 87,430) | (| 89,136) | () | 46,079) |
| | \$ | _ | \$ | 1,022 | \$ | 61,269 |

- A. Information relating to futures trading margin receivable credit risk is provided in Note 20(6).
- B. The ageing analysis of futures trading margin receivable is as follows:

| | March | n 31, 2019 | Decembe | er 31, 2018 | Mar | ch 31, 2018 |
|---------------|-------|------------|---------|-------------|-----|-------------|
| Up to 30 days | \$ | - | \$ | - | \$ | - |
| 31-90 days | | - | | 3,348 | | 107,107 |
| 91-180 days | | 1,465 | | - | | - |
| Over 181 days | | 85,965 | | 86,810 | | 241 |
| | \$ | 87,430 | \$ | 90,158 | \$ | 107,348 |

The above ageing analysis was based on posting date.

(5) Financial assets at fair value through other comprehensive income

| | March 31, 2019 I | | Dece | mber 31, 2018 | March 31, 2018 | |
|----------------------|------------------|-----------|------|---------------|----------------|-----------|
| Current items: | | | | | | |
| Equity instrument | | | | | | |
| Listed stocks | \$ | 386,227 | \$ | 156,200 | \$ | 384,246 |
| Valuation adjustment | | 34,238 | (| 675) | (| 22,139) |
| Total | \$ | 420,465 | \$ | 155,525 | \$ | 362,107 |
| Non-current items: | | | | | | |
| Equity instrument | | | | | | |
| Non-Listed stocks | \$ | 221,132 | \$ | 221,132 | \$ | 221,132 |
| Valuation adjustment | | 1,205,605 | | 1,182,887 | | 1,036,753 |
| Total | \$ | 1,426,737 | \$ | 1,404,019 | \$ | 1,257,885 |

- A. The Group has elected to classify stock investments that are considered to be strategic investments and earning steady dividend income as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$1,847,202, \$1,559,544 and \$1,619,992 as at March 31, 2019, December 31, 2018 and March 31, 2018, respectively.
- B. For the three months ended March 31, 2019 and 2018, to avoid systemic risks due to market interference and uncertainties, the Group sold \$43,383 and \$30,616, respectively, of listed stocks at fair value and resulted in cumulative gains on disposal of \$2,294 and \$1,298, respectively.
- C. Amounts recognised in profit or loss and other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

| | T | Three months ended March 31, 2019 | | Three months ended |
|--|-------------|-----------------------------------|------------|--------------------|
| | | | | March 31, 2018 |
| Equity instruments at fair value through other | | | | |
| comprehensive income | | | | |
| Fair value change recognised in other | | | | |
| comprehensive income | \$ | 59,925 | \$ | 76,941 |
| Cumulative losses reclassified to | | | | |
| retained earnings due to derecognition | (<u>\$</u> | 2,294) | <u>(\$</u> | 1,298) |

D. The Group has no financial assets at fair value through other comprehensive income pledged to others.

(6) Financial assets at amortised cost

| | March 31, 2019 De | | Decem | December 31, 2018 | | <u>ch 31, 2018</u> |
|------------------------------|-------------------|----------|-------|-------------------|----|--------------------|
| Current items: | | | | | | |
| Financial bonds | \$ | 92,587 | \$ | - | \$ | - |
| Less: Accumulated impairment | (| 53) | | | | |
| Total | \$ | 92,534 | \$ | _ | \$ | _ |
| Non-current items: | | | | | | |
| Financial bonds | \$ | - | \$ | 92,386 | \$ | 87,762 |
| Less: Accumulated impairment | | <u>-</u> | (| 53) | (| 55) |
| Total | \$ | _ | \$ | 92,333 | \$ | 87,707 |

A. Amounts recognised in profit or loss in relation to financial assets at amortised cost are listed below:

| | Three m | Three months ended | | |
|-----------------------------|---------|--------------------|-------|------------|
| | March | n 31, 2019 | Marcl | n 31, 2018 |
| Interest income | \$ | 741 | \$ | 707 |
| Reversal of impairment loss | | <u>-</u> | | 18 |
| | \$ | 741 | \$ | 725 |

- B. As at March 31, 2019, December 31, 2018 and March 31, 2018, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the financial assets at fair value through other comprehensive income held by the Group was \$92,534, \$92,333 and \$87,707, respectively.
- C. The Group has no financial assets at amortised cost pledged to others.
- D. Information relating to credit risk is provided in Note 20(6).

(7) Operating guarantee deposits

The Company's annual interest rates of operating guarantee deposits that were provided as time deposits maturing within one-year in Yuanta Bank as of March 31, 2019, December 31, 2018 and March 31, 2018 were all 1.035%. Details of the pledged assets are provided in Note 8.

As at March 31, 2019, December 31, 2018 and March 31, 2018, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the operating guarantee deposits held by the Group was \$145,891, \$145,886 and \$147,085, respectively.

(8) Clearing and settlement funds

The Company exercises clearing and settlement transactions in accordance with the criteria of clearing membership's regulation of the Taiwan Futures Exchange. Before exercising clearing and settlement transaction, the Company should deposit \$40,000. After one year, the amount that should be deposited could be decreased to \$30,000 and the Company could deposit settlement and clearing fund through an appropriation method and an amount that is regulated by the Taiwan Futures Exchange. Every additional entrusting futures merchant performing settlement and clearing transaction, should deposit settlement and clearing fund of \$3,000 before entrusting. Every branch established that performs futures transactions or every additional entrusting futures introducing broker by clearing member or every branch established by such futures introducing broker, should deposit another \$1,000 settlement and clearing fund to the Taiwan Futures Exchange.

As at March 31, 2019, December 31, 2018 and March 31, 2018, without taking into account any collateral held or other credit enhancements, the maximum exposure to credit risk in respect of the amount that best represents the clearing and settlement funds held by the Group was \$524,015, \$492,788 and \$462,649, respectively.

(10) Leasing arrangements—lessee

Effective 2019

- A. The Group leases various assets including buildings. Rental contracts are typically made for periods of 3 to 5 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose covenants, but leased assets may not be used as security for borrowing purposes.
 - B. The carrying amount of right-of-use assets and the depreciation charge are as follows:

| | | Fo | or the three months ended |
|-----------|---------------------|----|---------------------------|
| | March 31, 2019 | | March 31, 2019 |
| | Carrying amount | | Depreciation charge |
| | Carrying amount | | Depreciation charge |
| Buildings | \$ 50,982 | \$ | 6,279 |

- C. For the three months ended March 31, 2019, there were no additions to right-of-use assets.
- D. The information on income and expense accounts relating to lease contracts is as follows:

| | For the three | e months ended |
|---------------------------------------|---------------|----------------|
| | March | 31, 2019 |
| Items affecting profit or loss | | |
| Interest expense on lease liabilities | \$ | 114 |
| Expense on short-term lease contracts | | 3,176 |

- E. For the three months ended March 31, 2019, the Group's total cash outflow for leases was \$9,486.
- F. Extension and termination options
 - (a) In determining the lease term, the Group takes into consideration all facts and circumstances that create an economic incentive to exercise an extension option or not to exercise a termination option. The assessment of lease period is reviewed if a significant event occurs which affects the assessment.

(12) Pension

- A.(A) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company and its domestic subsidiaries contribute monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company and its domestic subsidiaries would assess the balance in the aforementioned labor pension reserve account by December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company and its domestic subsidiaries will make contributions for the deficit by next March.
 - (B) For the aforementioned pension plan, the Group recognized pension costs of \$206 and \$203 for the three months ended March 31, 2019 and 2018, respectively.
 - (C) Expected contributions to the defined benefit pension plans of the Group for the year ending December 31, 2020 amount to \$785.
- B.(A) Effective July 1, 2005, the Company and its domestic subsidiaries have established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company and its domestic subsidiaries contribute monthly an amount based on 6% of the employees'monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
 - (B) The pension costs under defined contribution pension plans of the Group for the three months ended March 31, 2019 and 2018, were \$4,423 and \$4,229, respectively.
- C. The Company reclassified net defined benefit liabilities as well as resignation and pension liabilities from provision non-current to other non-current liabilities based on their natures. The affected amounts were \$80,998 and \$68,094, respectively, on December 31, 2018 and March 31, 2018.

(13) Share capital

As of March 31, 2019, the Company's authorized capital was \$2,500,000, and the paid-in capital was \$2,322,763 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected.

(14) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(15) Special reserve

| | Mai | rch 31, 2019 | Dece | mber 31, 2018 | Ma | rch 31, 2018 |
|-------------------------|-----|--------------|------|---------------|----|--------------|
| Legal capital reserve | \$ | 1,866,865 | \$ | 1,866,865 | \$ | 1,692,208 |
| Special reserve-Fintech | | 8,505 | | 8,505 | | 4,139 |
| | \$ | 1,875,370 | \$ | 1,875,370 | \$ | 1,696,347 |

- A. According to the "Rules Governing the Administration of Securities Firms", 20% of the current year's earnings, after paying all taxes and offsetting prior years' operating losses, if any, shall be set aside as special reserve until the cumulative balance equals the total amount of paid-in capital. The special reserve shall be used exclusively to cover accumulated deficit or to increase capital and shall not be used for any other purpose. Such capitalization shall not be permitted unless the Company has already accumulated a special reserve of at least 50% of its paid-in capital and only half of such special reserve may be capitalized.
- B. The Company transferred provision on bad debt loss that had been set aside but not reversed to special reserve on initial application of IFRSs in accordance with Gin-Gwen-Zheng-Qi Letter No. 1010032090, dated July 10, 2012. Except for offsetting operating losses or special reserve exceeding 50% of the Company's paid-in capital after transferring, the Company could transfer half of special reserve as share capital.
- C. According to Gin-Gwen-Zheng-Qi Letter No. 1010048029, an equivalent amount of special reserve should be set aside from earnings after tax of the current year and the undistributed earnings of the prior period based on the decreased amount of equity. For the cumulative decrease in equity of the prior period, the equal amount of special reserve set aside based on the undistributed earnings should not be distributed. If there is any reversal of the decrease in equity, the earnings may be distributed based on the reversal proportion.

In addition, according to Gin-Gwen-Zheng-Quan Letter No. 10500278285 dated August 5, 2016, for earnings from fiscal years 2016 to 2018, futures commission merchants shall set aside special reserve from earnings after tax in the range between 0.5% to 1%. Also, starting fiscal year 2017, the expenditure of staff education training, staff transfer or resettlement arising from the development of financial technology could be reversed at the same amount within the above mentioned range.

(16) Retained earnings

A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% and 20% of the remaining amount shall be set aside as legal reserve and special reserve. The remainder, if any, to be retained or to be appropriated shall be resolved by the stockholders at the stockholders' meeting.

- B. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- C. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- D. The appropriation of 2017 and 2016 earnings had been resolved by the Board of Directors (acting on behalf of stockholders). Details are summarized below:

| | 2017 | | | 2016 | | | |
|-------------------------|---------------|---------|---------------------------|------|--------------------|----|------|
| | Dividends per | | Div | | dends per | | |
| | | Amount | Share (in dollars) Amount | | Share (in dollars) | | |
| Legal reserve | \$ | 87,329 | | | \$ 82,771 | | |
| Special reserve | | 174,657 | | | 165,543 | | |
| Special reserve-Fintech | | 4,366 | | | 4,139 | | |
| Cash dividends | | 464,553 | \$ | 2.00 | 573,722 | \$ | 2.47 |

E. On March 21, 2019, the Board of Directors resolved the distribution of earning for 2018 as follows:

| | 2018 | | | |
|-----------------------------|------|---------|--------------|----------|
| | | | Dividends | s per |
| | A | Amount | Share (in do | ollars)_ |
| Legal reserve | \$ | 100,005 | | |
| Special reserve | | 200,009 | | |
| Special reserve-Fintech | | 5,000 | | |
| Reversal of special reserve | (| 5,478) | | |
| Cash dividends | | 650,374 | \$ | 2.80 |

Note: According to Gin-Gwen-Zheng-Quan Letter No. 10500278285, the Company shall set aside 0.5% special reserve for staff education training, staff transfer or resettlement due to the development of financial technology and the protection of employee's right. The special reserve is reversed in accordance with the letter.

F. For information relating to employees' remuneration and directors' and supervisors' remuneration, please refer to Note 6(25).

| 22 | Equity | 8,538,271 | 805.50% | 7,740,537 | 730.24% | ≥60% >40% | Satisfied |
| 2.2 | Minimum paid – in capital (Note 1) | 1,060,000 | 803.30% | 1,060,000 | 730.24% | $\ge 40\%$ (Note 2) | |
| 22 | Post – adjustment net capital | 5,861,331 | 49.99% | 5,886,752 | 66.37% | ≥20% | Satisfied |
| 22 | Total margin deposit required for futures traders, not yet off-set | 11,724,758 | 47.79% | 8,868,937 | 00.37% | ≥15% | Saustieu |

- Note 1:"Minimum paid-in capital" shall be in compliance with futures commission merchants standard set of capital amount or designated appropriation of operating capital amount.
- Note 2: For the entrusted foreign futures trading of foreign futures merchants, the standard ratios (equity / minimum paid-in capital) are adjusted to 50% and 30%, respectively.
- Note 3: "Enforcement" column shall state whether or not the financial ratio requirements are satisfied; if not, an explanation is needed to be filed with a specific appointed institution or establish an improvement plan.

13. SPECIFIC INHERENT RISKS IN OPERATING AS FUTURES DEALER

- (1) Credit risk is the main risk for engaging in futures brokerage business since the Group must demand collecting trading margin deposits from customers. The credit risk occurs when the customers fail to pay margin deposits. The Group acts as agents for trading futures and options contracts and should pay attention to daily margin credit as to control credit risk. Market risk is also noted in the industry due to dealer business. Dealer business is price index sensitive, therefore, the Group pre-sets stop loss point for risk management purposes.
- (2) The specific risks of the Group's futures brokerage business are outlined below: Futures trading has a characteristic of low margin. Therefore, the risks of futures trading include: when the futures market trend is unfavorable for customers, futures firms may demand to collect additional trading margin deposits from customers to keep certain margin level. If the customers fail to pay margin deposits in a period prescribed, futures firms have the right to offset the contract amount of the customers by the additional margin deposits demanded. Further, futures firms may incur losses when futures market prices fluctuate drastically and the customers are unable to settle futures contracts.
- (3) See Note 20 for significant financial risk information on futures dealer business.

14. SEGMENT INFORMATION

(1) General information – type of product and service of reporting segments' income source

Management has determined the operating segments based on the reports reviewed by the Chief Operating Decision-Maker, i.e. Board of Directors, that are used to make strategic decisions. The Chief Operating Decision-Maker considers the source of income, and the Group's operating segments are divided into broker and dealer. The primary source of income by each segment is as follows:

Broker: Consigned and entrusted to futures trading and financial instruments trading approved by relevant regulations in the R.O.C.

Dealer: Used capital funds to engage in trading stocks, futures, options, and other derivatives financial instruments approved by relevant regulations in the R.O.C.

(2) Measurement of segment information

A. Information on segment profit (loss); measurement of assets and liabilities

Measurement of profit (loss), assets and liabilities of the Group are consistent with Note 4 – Summary of significant accounting policies. Measurement of profit (loss) performance is based on income before tax.

In order to establish a fair and reasonable performance evaluation, the Group would offset the income and expense incurred internally from each segment for external financial reporting purposes.

Income and expense are classified directly to the segment where they belong to. For expense incurred indirectly, it will consider its classification based on the usage purpose by proportionally dividing into each segment when a reasonable rate can be assigned. Otherwise, it will be classified as "Other segment" when a reasonable rate cannot be assigned.

B. Identifying factors for reportable segments

The measurement of segment performance will be evaluated periodically to ensure

that it achieves the goals of the Group. The results of its evaluation will be used as the framework for resource allocation.

17. INFORMATION ON INVESTEES (NOT INCLUDING INVESTEES IN MAINLAND CHINA)

(1) Names of investee companies, locations, and related information are as follows:

| | | | | | | Initial invest | ment amount | Shares held a | as at December | er 31, 2018 | | | Investment | G 1 | |
|--------------------------------|--|--------------|-------------|--|---------------------------------------|---------------------------------------|--|--|----------------|---------------|----------------------------------|-----------------------------------|------------|--------------------------------------|------|
| Investor | Investee | Location | Set up date | FSC Approved Number | Main business activities | Balance as at March 31, 2019 | Balance as at December 31, 2018 | Number of shares (in thousands) | Ownership | Book value | Operating revenue by the company | Net income (loss) of the investee | C | Cash dividend for the current period | Note |
| Yuanta Futures Co., Ltd. | Yuanta Futures (Hong Kong) Co., Ltd. | Hong Kong | 2010.12.2 | Gin-Gwen- Zheng-Qi Letter No. 0990055943 | Financial Services | \$1,033,971 | , | | | | | | | poriod | - |
| Yuanta Futures Co., Ltd. | SYF Information Co., Ltd. | Taiwan | 2012.10.16 | | Information Technology Services | | 350,000 | 35,000 | 100.00% | 293,894 | - | (1,463) | (1,463) | | - |
| SYF Information Co., Ltd | SYF Information (Samoa) Limited | Samoa | 2012.11.15 | Gin-Gwen- Zheng-Qi Letter No. 1010035210 | Investment Holdings | 184,857 | 184,857 | 5,800 | 100.00% | 152,532 | - | (1,530) | (1,530) | | - |

- (2) Information on investee companies with direct or indirect controlling interest is as follows:
 - A. Financing activities to any company or person: None.
 - B. Endorsements and guarantees provided: None.
 - C. Acquisition of real estate properties exceeding \$300 million or 20% of the Company's paid-in capital: None
 - D. Disposal of real estate properties exceeding \$300 million or 20% of the Companies' paid-in capital: None
 - E. Purchases or sales transactions discount on Broker's charges with related parties in excess of NT\$5,000,000: None.
 - F. Accounts receivable from related parties reaching \$100 million or over 20% of paid-in capital balance: None.
 - G. Other: Significant transactions between parent company and subsidiaries: None.

18. DISCLOSURE OF INFORMATION ON SETTING UP BRANCH OFFICES AND REPRESENTATIVE

None.

19. DISCLOSURE OF INFORMATION ON INDIRECT INVESTMENT IN MAINLAND CHINA

(1) Basic information:

| Name of | | | | Beginning balance of | moveme | tment nt within period | Ending balance of foreign | Net | Percentage of direct or | Gain (loss) recognized during the | Book value | Accumulated |
|---|--|-----------|---|----------------------|----------|------------------------------|---------------------------|------------|-------------------------|-----------------------------------|------------|---------------|
| investee in | | | Investment | foreign | | | investment | | indirect | period | | gain returned |
| Mainland | Main business | Issued | method | investment | Invested | Returned | from | of | investment | (Notes 2) | March 31, | to Taiwan at |
| China | activities | capital | (Note 1) | from Taiwan | amount | amount | Taiwan | investee | holding | (2.C) | 2019 | end of period |
| SYF Information (Shanghai) Limited | Research & development and production of computer software, etc. | \$157,209 | (2) SYF Information (Samoa) Limited | \$157,209 | \$ - | \$ - | \$157,209 | (\$ 1,734) | 100 | (\$ 1,734) | \$126,679 | - |

| Accumulated amount of remittance from Taiwan to Mainland China as of March 31, 2019 | Investment amount approved by the Investment Commission of the Ministry of Economic Affairs (MOEA) | Ceiling on investments in Mainland China imposed by the Investment Commission of MOEA |
|---|--|---|
| \$ 157,209 | \$ 174,000 | \$ 5,122,963 |

Note 1: Investment types are categorized into three sub-sections, as follows:

- (1) Direct investment in entities of Mainland China.
- (2) Reinvest in entities of Mainland China through indirect investment in the third place.
- (3) Others.

Note 2: In the 'Gain (loss) recognized during the period' column:

- (1) It should be indicated if the investee was still in the incorporation stage and had not yet any profit during this period.
- (2) Indicate the basis for investment income (loss) recognition in the number of one of the following three categories:
 - A. The financial statements that are audited and attested by international accounting firm which has cooperative relationship with accounting firm in R.O.C.
 - B. The financial statements that are audited and attested by R.O.C. parent company's CPA.
 - C. Others.

Note 3: The numbers in this table are expressed in New Taiwan Dollars.

(2)Significant transactions conducted with investees in Mainland China directly or indirectly through other companies in the third areas: None.

20. FINANCIAL RISK MANAGEMENT

(1) Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Group adopted to strengthen risk-adjusted return on capital, which allocated the Group's capital effectively.

(2) Financial instruments

The methods of reporting derivative financial instruments on financial statements: please refer to the Notes 6(1), 6(2), 6(21).

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

- Level 1: Inputs that are quoted prices (unadjusted) in active markets for identical assets or liabilities. An active market has to satisfy all the following conditions: a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks, beneficiary certificates and derivative instruments with quoted market prices is included in Level 1.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices). The fair value of the Group's investment in off-the-run financial bonds is included in Level 2.
- Level 3: Inputs for the asset or liability that are not based on observable market data. The fair value of the Group's investment in equity investment without active market is included in Level 3.

B. Financial instruments not measured at fair value

- (A) Except for those listed in the table below, the carrying amounts of cash and cash equivalents, margin deposits, futures trading margin receivable, security leading deposits, accounts receivable, accounts receivable –related parties, other receivable, other receivable –related parties, leverage margin contract trading client margin deposits, other current assets, operating guarantee deposits, clearing and settlement funds, refundable deposits, futures traders' equity, accounts payable, accounts payable—related parties, other payables, other payables—related parties and other current liabilities are approximate to their fair values.
- (B) The fair value of financial assets at amortised cost financial bonds is determined by using valuation techniques and categorized within Level 2 in the fair value hierarchy. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. On March 31, 2019, December 31, 2018 and March 31, 2018, the carrying amounts and fair values of financial assets at amortised cost financial bonds were \$92,534, \$92,333 and \$87,707 as well as \$92,530, \$92,853 and \$87,422, respectively.

(C) The related information of financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities at March 31, 2019, December 31, 2018 and March 31, 2018 is as follows:

| March 31, 2019 | Level 1 | Level 2 | Level 3 | Total | |
|---|------------|----------|--------------|--------------|--|
| Assets | | | | | |

| Derivatives Liabilities - Leverage | | | | |
| margin contract transaction | | 48 | | 48 |
| Total | \$ 19,618 | \$ 48 | \$ - | \$ 19,666 |

D. The methods and assumptions the Group used to measure fair value are as follows:

- (A) The fair value of financial instruments traded in active markets is based on quoted market prices at the consolidated balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the closing price. These instruments are included in level 1. Instruments included in level 1 comprise primarily equity instruments and debt instruments classified as financial assets/financial liabilities at fair value through profit or loss, or financial assets at fair value through other comprehensive income.
- (B) The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- (C) If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.
- (D) Specific valuation techniques used to value financial instruments include:

- a. Quoted market prices or dealer quotes for similar instruments.
- b. Other techniques, such as discounted cash flow analysis, are used to determine fair value for the remaining financial instruments.
- E. For the three months ended March 31, 2019 and 2018, there were no transfer between Level 1 and Level 2.
- F. The following table presents the changes in level 3 instruments for the three months ended March 31, 2019 and 2018.

| | Equ | ity securities |
|--|-----|----------------|
| January 1, 2019 | \$ | 1,404,019 |
| Gains and losses recognised in other comprehensive income (Note) | | 22,718 |
| March 31, 2019 | \$ | 1,426,737 |
| | Equ | ity securities |
| January 1, 2018 | \$ | 1,183,345 |
| • • | | |
| Gains and losses recognised in other comprehensive income (Note) | | 74,540 |

Note: Recorded as unrealised valuation gain or loss on financial assets at fair value through other comprehensive income.

G. The following is the qualitative information of significant unobservable inputs to valuation model used in Level 3 fair value measurement:

| Non-derivative equity | Fair value at March 31, 2019 | Valuation technique | Significant Unobservable input | Range (weighted average) |
|---|---------------------------------|---------------------|----------------------------------|--------------------------|
| Non-listed stocks | \$ 1,426,737 | Market approach | Price to earnings ratio multiple | 26.85 |
| | | | Discount of marketability | 40% |
| Non doninatina acuita | Fair value at December 31, 2018 | Valuation technique | Significant Unobservable input | Range (weighted average) |
| Non-derivative equity Non-listed stocks | \$ 1,404,019 | Market approach | Price to earnings ratio multiple | 26.53 |
| | | | Discount of marketability | 40% |

| | Fair value at March 31, 2018 | Valuation technique | Significant Unobservable input | Range (weighted average) |
|-----------------------|---------------------------------|---------------------|-----------------------------------|--------------------------|
| Non-derivative equity | | | | |
| Non-listed stocks | \$ 1,257,885 | Market | Price to earnings ratio | 25.42 |
| | | approach | multiple | |
| | | | Discount of | 40% |
| | | | marketability | |

- H. The valuation process for fair values classified at Level 3 is the responsibility of the risk management department, which verifies the financial instrument's fair value. The result of the evaluation is then reviewed and approved by the risk management department of the Group's parent company. The risk management department evaluates the independence, reliability, consistency, and representativeness of the information source, and periodically verifies the valuation model and calibrates the valuation parameters, ensuring the valuation process and valuation results are in accordance with IFRS's requirements.
- I. The Group has carefully assessed the valuation models and assumptions used to measure fair value; therefore, the fair value measurement is reasonable. However, use of different valuation models or assumptions may result in difference measurement. The following is the effect of profit or loss or of other comprehensive income from financial instruments categorized within Level 3 if the valuation input of financial instrument classified in Level 3 moves upward or downward by 1%:

| | March | 31, 2019 | | | | | | |

(4) System of risk management

A. Objectives of risk management

The Group controls any potential losses that might incur in operations within its tolerable limits by increasing completeness of risk management mechanism, establishing efficient risk management measures, models and systems, and monitoring the changes of whole risks strictly. The Group also puts efforts in allocating its capital more efficiently to raise the risk adjusted return on capital.

B. Risk management system

The Group's risk management system is in compliance with the "Risk Management Policy" of Yuanta Financial Holding Co., Ltd. and "Risk Management Practice Principles for Futures Commission Merchants" of Taiwan Futures Exchange. The Group has established the Risk Management Policy, which is the internally highest risk management standard authorized by the Board of Directors, comprising objectives, scopes, powers and responsibilities, and procedures of risk management.

C. Organizational structure of risk management

- (A) The Group's organizational structure of risk management comprises the Board of Directors, Audit Committee, high management level, Risk Management Department, Legal Compliance Department, Auditing Office, each business unit and each functional committee; they all together form three lines of defense for risk management.
 - a. First line of defense: this includes each business unit and each functional committee, whose personnel are serving in the operational or administration division and have responsibilities for risk identification, risk assessment and risk control.
 - b. Second line of defense: this includes high management level, Risk Management Department and Legal Compliance Department, which are responsible for risk monitoring, risk management and taking measures in response to risk issues in accordance with the Group's Risk Management Policy. The Group also takes part in the Risk Management Committee of Yuanta Financial Holding Co., Ltd. for integration of risk control and management in the Group.
 - c. Third line of defense: this includes the Board of Directors, Audit Committee and Auditing Office. Auditing Office conducts audits especially in the risk consideration to ensure every risk is under control.
- (B) The function of each unit in the structure of risk management of the Group is as follows:
 - a. The Board of Directors: The Board of Directors has ultimate responsibility for risk management on all businesses and operations in the Group; it shall be fully aware of every risk exposure to the Group, and then determines tolerable limit for every risk, allocates resources effectively, and authorizes relevant departments to execute risk measures for the achievement of effective risk management. The Board of Directors hears risk management and other related reporting by Risk Management Department, Auditing Office and Finance Department regularly to evaluate the impact of every risk and the impact on capital allocation, and determines responding strategies.
 - b. Audit Committee: Audit Committee directs the execution of the risk management system under the commission of the Board of Directors; its main duties include review of the Group's risk scopes and risk toleration capability, of the Risk Management Policy and relevant principles, and of annual authorized acceptable limit of risk of each kind, as well as directing the execution of the risk management system.
 - c. Risk Management Department: this department, an independent department under the Board of Directors, is responsible for market risk, liquidity risk and credit risk management, and controls operational risk with Auditing Office together; its main duties include daily risk monitoring and assessments of risk management affairs. Risk Management Department exercises its authority independently from business units and trading activities, and holds accountability to the Board of Directors directly. By employing the risk management information system, Risk Management Department monitors trading conditions in the futures market during the trading time every day and performs analyses after the closing of trading time; it also checks the use status of risk limits authorized to

each business unit, and assesses risk exposures and extent of risk concentration, and submits risk management reports regularly.

- d. Auditing Office: Auditing Office, an independent department under the Board of Directors, is responsible for legislation and internal control system compliance management, operational risk management and supervision of operational risk management procedures. In accordance with the internal control rules of regulatory authorities, and adjusted operational risk management procedures appropriately in line with the amendments to the regulations of regulatory authorities, Taiwan Futures Exchange and Chinese National Futures Association or for the changes in the Group's business.
- e. Legal Compliance Department: this department is responsible for review of legal compliance for the Group's businesses, operations, trading and transaction contracts/documents and offering legal options on those aspects and pushing the execution of legal compliance within the Group together with Auditing Office.
- f. Each business unit: Each business unit is liable for the first-line risk management. The directors of each business unit are in charge of the whole risk management on businesses and trading activities of the unit, including analyzing and controlling risk exposures, drawing up responding plans and taking measures against risk when necessary, and also conveying related information to Risk Management Department to ensure the risk control mechanism and procedures are all effectively executed, and comply with the legislation and the Group's Risk Management Policy and regulations.

D. Procedures of risk management

The Group's procedures of risk management include risk identification, risk measurement, risk management and risk reporting. The design of these procedures is to ensure all risks faced by the Group can be effectively controlled.

- (A) Risk identification: The Group identifies risks, through business and product analyses, that may arise during the courses of operations, including market risk, credit risk, liquidity risk, operational risk, legal risk and model risk, and finds out risk factors of risk exposure of each kind, selects appropriate method of risk measurement, and establishes risk indexes and judgment principles and risk control procedures that can be connected to the internal information system.
- (B) Risk measurement: The Group measures market risk by using scenario analysis, sensitivity analysis and VaR model and credit risk by using the credit rating system, option pricing model (ex. KMV) and following the Group's credit risk assessment rules. Operational risk is controlled by establishing standard operating procedures, establishing internal and external event notification mechanism, reviewing current operating procedures and employing operational risk management methods.
- (C) Risk management: Risk monitoring and control are performed through the use of risk management tools, establishment of acceptable limits of risks and division of authority and responsibilities. Different risk management tools and information systems and statements are developed and employed for different risks to raise the efficiency and quality of risk management.
- (D) Risk reporting: Risk information and risk management performing results are compiled as risk management statements or reports. These results are disclosed periodically and provided as a reference to the management in making risk management policy and rules.

E. Hedging and risk diminishing strategies

The Group has established hedging tools and hedging mechanisms for risks of each business based on its capital scale and risk toleration capability. Through hedging mechanisms, the Group may restrict risks within authorized limits, and employ authorized financial instruments, based on market conditions, business strategies, characteristics of commodities and risk management rules, to adjust risk positions within acceptable levels.

(5) Market risk

The Group's financial assets include bank deposits, government bonds, treasury bonds, bank debentures, negotiable certificates of deposit, commercial papers or other short-term notes and bills authorized by Ministry of Finance, domestic listed stocks, securities investment trust funds, offshore funds authorized by competent authorities to be raised and sold in ROC, futures trust funds, futures trading listed in Article 5 of Futures Trading Act, hedging trading of bond options and other financial instruments authorized by competent authorities. The fair value of these financial assets would be changed by the fluctuations of market prices or interest rates.

To manage market risk, the Group has established the Rules of Financial Instruments Investment Risk Management, including Rules of Dealer Trading Risk Management and Rules of Medium and Long-term Securities Investment Risk Management, and established various control mechanisms based on the characteristics of financial instrument risks, such as position limits, stop-loss amounts and exception management. The Group also conducts market risk quantitative management by employing VaR model in the measurement and control of market risk of each position.

Through the VaR model, the Group measures market risk by estimating maximum possible losses of the trading positions for the next day at the 99% confidence level. According to the types of trading, the VaR of equity trading, commodity trading, foreign-exchange-rate trading and interest-rate trading are as follows:

<Table>VaR of Trading of Different Types

Period: January 1 ~March 31, 2019 Amount in thousands of NTD

| | | | | F | oreign | | | |
|-----------------|--------------|----|---------|------|-----------|------|-----------|--------------|
| Type of Trading | Equity | Co | mmodity | Exch | ange Rate | Inte | rest Rate | Total |
| March 31, 2019 | \$ 22,780 | \$ | 209 | \$ | 823 | \$ | - | \$ 23,103 |
| Average | 9,567 | | 301 | | 680 | | - | 9,497 |
| Lowest | 875 | | - | | 471 | | - | 799 |
| Highest | 28,244 | | 748 | | 1,376 | | _ | 27,654 |

Period: January 1 ~March 31, 2018

Amount in thousands of NTD

| | | | | | ŀ | oreign | | | |
|-----------------|----|--------|----|---------|------|------------|-----|-------------|-------------|
| Type of Trading |] | Equity | Co | mmodity | Exch | nange Rate | Int | terest Rate | Γotal |
| March 31, 2018 | \$ | 1,409 | \$ | 893 | \$ | 600 | \$ | - | \$ 1,806 |
| Average | | 1,812 | | 769 | | 791 | | 92 | 2,806 |
| Lowest | | 430 | | 289 | | - | | - | 867 |
| Highest | | 5,516 | | 1,393 | | 1,718 | | 1,472 | 5,974 |

Note 1: Trading included futures dealer trading and securities dealer trading but excluded medium and long-term securities investments.

Note 2: Total category of value-at-risk may be less than the amount of value-at-risk of equity, commodity, foreign exchange rate and interest rate, that's due to diversification effects between different categories.

To ensure the VaR model can reasonably, completely and correctly measure the maximum potential risk of financial instruments or portfolios, the Group continues to run model validation and back testing to ensure that the Group's VaR model can reasonably measure maximum potential losses of financial instruments or portfolios.

(6) Credit risk

- A. The Group is exposed to credit risk from financial trading, including issuer credit risk, counterparty credit risk and underlying asset credit risk.
 - (A) Issuer credit risk occurs when issuer (or guarantor) of the financial debt instruments held by the Group or bank with which the Group deposits money fails to fulfill contractual obligations (or guarantor's obligations) because of its default, bankruptcy or liquidation, which would cause a financial loss to the Group.
 - (B) Counterparty credit risk occurs when counterparty of the financial instrument transaction undertaken by the Group fails to fulfill settlement or payment obligation on the appointed day, which would cause a financial loss to the Group.
 - (C) Underlying asset credit risk refers to the risk of loss that may arise from deterioration of credit quality of the underlying asset linked to the financial instruments or increasing of credit risk premium or downgrade of credit rating or contract default.
- B. The financial assets of the Group with credit risk include bank deposits, debt securities, OTC derivative trade, repurchase agreement/reverse repurchase agreement of bonds (bills), deposits for securities borrowing and lending trade, margins for futures trade, other margins and receivables.
 - (A) Analysis of concentration of credit risk
 - a. Geographic location:

Percentages of credit risk exposure amounts of the Group's financial assets by geographic area were as follows (see the table below): As of March 31, 2019, the highest was Taiwan with 81.14%, the second was Asia (excluding Taiwan) with 13.83%. Compared to the same period last year, the proportion of investments in Asia has increased slightly in this period.

b. Industry:

Percentages of credit risk exposure amounts of the Group's financial assets by industry were as follows (see the table below): Financial institutions are 99.84%. Credit risk is concentrated in financial institutions because the Group's own capital and margins received

from customers were both deposited with financial institutions, debt securities held by the Group were issued or guaranteed by banks, and counterparties of derivative trade and reverse repurchase agreement of bonds undertaken by the Group were banks, futures clearing and settlement institution and re-consigned futures firms. The percentages distribution did not change significantly in this period compared to the corresponding period of last year.

- (B) Analysis of credit risk levels
 - a. Credit risk rating is categorized into Excellent, Standard, Below standard, Other and the definitions are illustrated below:
 - (a) Excellent: The underlying position or an entity is capable of fulfilling its financial commitment even if facing significant uncertain factors or exposed to an adverse condition.
 - (b) Standard: The underlying position or an entity's capacity to fulfill the contractual obligation is weak, and any adverse movement toward operation, finance or economy could further weaken its capacity to fulfil financial commitment.
 - (c) Below standard: The underlying position or an entity's capacity to fulfill the contractual obligation is weak, and the fulfillment of the contractual commitment depends on the advantageous movement in operating environment and financial status.
 - (d) Other: This level shows that the counterparty or the underlying asset does not fulfill contractual obligations, or for other reasons fails to (or not) do the internal credit risk ratings.
 - b. As of March 31, 2019, the credit quality levels of the Group's financial assets were classified as follows: Excellent is 94.82%, standard is 5.04%. The result of credit quality level classification did not change significantly in this period compared to the corresponding period of last year.

| | March 31, 2019 | | Dec | ember 31, 2018 | March 31, 2018 | | |
|----------------|----------------|------------|-----|----------------|----------------|------------|--|
| Excellent | \$ | 69,809,908 | \$ | 69,384,754 | \$ | 58,815,197 | |
| Standard | | 3,709,643 | | 1,505,049 | | 24,740 | |

| Total | \$ | 73,620,967 | \$ | 70,990,243 | \$ | 59,011,211 | |

- C. The Group adopts following assumptions under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:
 - (A) The Group determines that there has been a significant increase in credit risk on a receivable (futures trading margin receivable and other receivables) if it is either past due over 30 days

- or in violation of the terms of the agreement.
- (B) Refundable deposits that have not been returned and the number of days past the refund date is more than 30, excluding deposits not returned due to specific conditions set in the contract.
- (C) At the balance sheet date, a debt instrument is considered to have significant increase in credit risk if the credit rating of the credit reference subject is non-investment grade and any of the following conditions apply:
 - a. The credit rating of the credit reference subject has dropped by more than one scale since initial recognition.
 - b. The implicit credit spread of the debt instrument has increased by a certain number of basis points since initial recognition
- (D) The definition of a financial asset in default
 - a. The Group adopts the assumptions under IFRS 9, the default occurs when the contract payments are past due over 90 days.
 - b. A debt instrument investment is considered in default if any of the following conditions apply:
 - (a) Bond was credit-impaired at the time of purchase.
 - (b) At the financial reporting date, the bond is rated as "in default."
 - (c) Interest or principal payments have not been made in accordance with the issuance terms.
 - (d) Due to credit condition of the issuer, the issuance terms were changed so that interest payments were delayed or not made at all.
 - (e) The issuer or guarantor has ceased operations, applied for reorganization, filed for bankruptcy, dissolved, or sold assets that have a significant impact on the company's ability to continue as a going concern.

(E) Write off policy

If the Group cannot reasonably expect to recover the entire or part of the financial asset, it will write off the entire or part of the financial asset.

- (F) Measurement of expected credit loss and consideration of forward-looking information
 - a. Futures trading margin receivable, other receivables interest on bond
 - Obtain historical loss rates (based on the historical losses from the past three years, compare the current and past economic environments to the predicted future environment (forward-looking factor) and determine if there is a significant change; adjust the estimate for future loss rates accordingly).
 - (a) The total carrying amount, allowance for losses, and maximum exposure of "futures trading margin receivable and other receivables-interest on bond" of the Group are as follows:

i. Futures trading margin receivable

ii. Other receivables-interest on bond

The Group's other receivables – interest on bond is included in the adjustment of financial assets measured at amortised cost.

b. Bond investments

The expected credit loss (ECL) model is primarily based on the following three parameters: probability of default (PD), loss given default (LGD), and exposure at default (EAD).

- (a) Probability of default: Calculated using the default rate tables published by external credit rating agencies and incorporating forward-looking information.
- (b) Loss given default: Calculated based on the guarantees and the priority of claims of the debt instrument, and the average recovery rates published by external credit rating agencies.
- (c) Exposure at default: total carrying amount (including interest receivable). The carrying amount is measured at amortized cost before any adjustments to the allowance for losses.
- (d) The expected credit loss of the investments in debt instrument at amortized cost of the Group, within 12 months, as of March 31, 2019, December 31, 2018 and March 31, 2018, are as follows:

| | Marc | ch 31, 2019 | De | cember 31, 2018 | N | March 31, 2018 | | |
|-------------------------|------|-------------|----|-----------------|-----------|----------------|--|--|
| | 12 | months | | 12 months | 12 months | | | |
| Expected loss rate | 0.03 | 7%~0.068% | (| 0.037%~0.068% | (| 0.038%~0.075% | | |
| Total book value | \$ | 92,587 | \$ | 92,386 | \$ | 87,762 | | |
| Loss allowance | (| 53) | (| 53) | (| 55) | | |
| Maximum exposure amount | \$ | 92,534 | \$ | 92,333 | \$ | 87,707 | | |

- (e) The Group has no life time expected credit loss of the investments in debt instrument at amortized cost as of March 31, 2019, December 31, 2018 and March 31, 2018.
- (f) Forward-looking information considerations

One of the quantitative indicators used in the assessment of significant increase in credit risk on debt instruments measured at amortized cost is the change in external credit ratings published by international credit rating agencies. The measure of expected credit loss is based on external credit ratings, the probability of default and loss given default information published by external credit rating agencies. These credit ratings incorporate forward-looking information, which is considered to be appropriate by the Group in estimating the expected credit losses.

D. Movements in loss allowance for financial assets at amortised cost (including interest receivables) within 12 months are as follows:

| | 20 |)19 |
|---------------------------------|-------------|--------|
| | 12 m | nonths |
| At January 1 | (\$ | 53) |
| Reversal of impairment | | |
| March 31 | (<u>\$</u> | 53) |

(7) Liquidity risk analysis

A. Liquidity risk of capital refers to the risk arising from the Group's inability to raise funds adequately in a period, which makes it unable to fulfill repayment or disbursement obligations on the expiry days. For liquidity risk management, the Group has established a warning system based on the nature of its businesses, including capital liquidity index, current ratio, loan lines granted by financial institutions and capital shortfall indication, which can estimate in advance the possible capital shortfall in certain periods and help the Group be aware of the overall liquidity risk of capital; the Group has also established a fund procurement plan in response to the occurrence of systematic risk events or exceptional capital flows. For the realization, marketability and safety of current assets, the Group has established the rules of capital risk management, which state the Group's bank deposits, bond trade, repo trade, etc. must meet certain level above of the internal rating and their positions and liquidity shall be monitored regularly.

B. The information about the maturity of the Group's financial liabilities is shown below. The Group's working capital is sufficient enough to meet its funding requirements in the future. Therefore it has no liquidity risk that would arise from inability to raise funds to fulfill repayment or disbursement obligations.
