Yuanta Futures Co., Ltd. (Originally: Polaris Futures) 2014 Business Report

I. Market Overview

Looking back the global economy in 2014 driven by the US economic recovery, Europe and USA futures index soared to a new record high price, on the other hand, commodity futures price dropped after US Dollar index reached the record high in the recent years, of which, eight categories of futures commodities, including energy, precious metals, home metals, agricultural products, etc. are subject to commodity futures price adjustment. Apparently, the year of 2014 was indeed a year of volatility. Regarding the futures market in Taiwan, the Volatility Index (VIX) hit a historical low price (8.27) on June 24, 2014, followed by a rebound in the following months that was the highest point on October 16 and hit a new historical high price (16) on October 16. This feature caused the trading volume of Taiwan futures in the second half of 2014 higher than the first half of 2014.

In addition, there were several new products launched at Taiwan Futures Exchange in 2014, such as, Eurex/TAIFEX Link listed on EUREX for the first time on May 15 to make up the inadequate after-hour trade of Taiwan futures market and to help with the risk control of the domestic futures participants (either proprietary accounts or institution investor accounts) that was clearly helpful to market integrity. In addition, ETF proprietary futures was listed on Taiwan Futures Exchange on October 6 with the issuance subjects of Taiwan 50, NZF, and FB SSE that helped investors trade Taiwan stock and China stock through these commodities; also, China stock driven by the SH-HK connect provided the investors of Taiwan futures with more channels to enter the market. Therefore, Taiwan futures market performed brilliantly in 2014. Taiwan futures market trading volume was 202,410,000 transactions in 2014 with a daily volume of 816,000 transactions, representing a growth of 31.04% from the year of 2013. In terms of foreign commodities futures, the US Stock 6,431,400 transactions accounted for 45.69% ranks highest, followed by the Singapore Commodity 6,084,100 transactions accounted for 43.22%, other foreign commodities 1,560,900 transactions accounted for 11.09% for a grand total of 14,076,500 transactions, representing a growth of 9.49% from the year before.

Taiwan Futures Exchange for the purpose of increasing market efficiency had introduced two new trade systems in 2014 – "before-hour information disclosure" and "defined market order" that was officially online on May 12 to make trade information more transparent, offer more diversified orders, and provide traders with a better web browsing and quality service. In addition, the competent authorities had given permissions to banks in November 2014 to trade futures for the purpose of long-hedge; the Eurex/TAIFEX Link commodities were opened for trade in December, and insurance industry was included for foreign futures trade and exempted from applying for approval of subject in order to improve capital utilization efficiency and operating performance of banks and insurance companies, while improving the trading volume of institution investors in market.

II. Corporate governance

- The Company is the one and only future company in Taiwan to receive the highest "A++" rating in the 11th listed and over the counter company information disclosure assessment by the Securities and Futures Institute as the year before. It evidences the importance of realizing corporate governance to the Company in addition to deploying new business and promoting business.
- After the merger of Yuan Futures and Polaris Futures in April 2012, the Board of Directors had the "Audit Committee" setup to replace the functions of supervisors, to supervise the Company's financial operations, internal control, regulatory compliance, and risk control for emphasizing an open and transparent management philosophy. The Audit Committee had convened 14 meetings in 2014.
- Through the "corporate governance system assessment" held by Taiwan Corporate Governance Association, examine the Company with the corporate governance assessment in response to the considerations of listing commitments and the Company's long-term operation so to make the Company's operating information more transparent, the internal controls better, and shareholder's benefit maximized. The Company was, as well, officially accredited by the Taiwan Corporate Governance Association for both "CG6004" and "CG6006",

The deployment of diversified strategy is focusing on providing diversified products; also, providing domestic and foreign popular futures trading strategies to meet customers' demand for spot and futures. In addition, the focus in 2015 will be on the development of the option strategic trading modules, of which, in addition to focusing on single buyer, seller, or spread, the option strategy will be reviewed comprehensively; also, different risk-return module will be recommended to each customer.
- (2) Diversified research reports: The Research Department of Yuanta Futures will continue to provide information of mobile phone APP integrated with commodity prices in 2015 as that of in 2014; also, to provide the respective research reports in response to market demand (Singapore A50 Futures Daily \ Weekly; S&P500 options prices bi-weekly; foreign futures eight categories quarterly report). The Company will continue to link the eight categories of assets and development strategy globally in 2015 in order to provide diversified services for the needs of institution investors and brokers and to assume a leading role in the industrial research.

V. Future operating plans and development strategies

Looking forward to 2015, the Company will, as always, try to render best investors-friendly services with development toward an omnifarious and comprehensive futures house. Meanwhile, we shall try to expand market shares and boost proprietary dealing performances. For 2015, we shall put forth maximum possible efforts toward the focuses below:

- (1) Secure market share of brokerage business: Create market differentiation services and enhance globalized operational capacity. Develop foreign futures 8-category commodities research report and 24hr APP message broadcasting service and marketing activities in various forms by creating international affairs issues; also, inject futures consulting and futures economic resources to construct a complete business value chain and to develop value-added services.
- (2) Actively expand IB foreign futures trading volume: Assist the IB locations to develop foreign futures business along with the lifting of regulations by the competent authorities. Provide excellent service of global boundary-free investment and no-time-different finance to investors around the clock based on the unity of securities and futures "24hr global operations center" concept.
- (3) Strengthen trade personnel management: Continue to strengthen trade risk

- management mechanisms, develop diversified global quantitative strategy, increase low-risk and high-return market strategy deployment, and recruit talents from campus for short-swing day trade and quantitative R&D based on an innovative trade personnel recruitment model.
- (4) Increase customer's AUM (asset under management) margin: Continue to expand the scale of customer's margin, enhance financial management efficiency comprehensively, improve customer margin spread profit, and provide foreign institution investors, domestic financial institution investors, and large-scale institution investors with a friendly investment environment with a stable and profound financial image.
- (5) Continue to launch new products in compliance with the policy of Taiwan Futures Exchange: Fully support Taiwan Futures Exchange to promote new products, such as, "Taiwan Futures Exchange authorizes Eurex Exchange to trade Taiwan futures and the 1-day futures contract of Taiwan stock option" and "ETF stock and futures" business for a win-win situation.
- (6) Continue to improve the Company's operation and management system: Integrate and optimize regulatory compliance, internal control and audit, corporate governance, and risk management structure in order to reduce operational risk.
- (7) Apply for leveraged trading to expand business territory: Expect to have leveraged trading setup in the second half of the year in order to add the relevant business services of long-term contracts, option contracts, swap contracts, and spread contracts; also, to provide general customers and professional institution investors with diversified profits and hedging channels by offering a structured contract combined with fixed-income products.
- (8) Promote Asian Cup deployment and plan: Support the Asian Cup development strategy to seek and invest securities companies in Asia that are with economies of scale and niche, at the same time, the Company will exercise the competitive advantage of experience in futures brokerage and through the IT R&D advantage to construct a profound security and future unity trading platform and aim to become the best futures company in Asia.

Looking forward toward future, we at the Company shall continually without interruption boost our competitive edge in the brokerage channels, IT platforms, IB services, juristic (corporate) person businesses and risk control through faithful, prominent, steadfast and innovative strategies. We shall richly cultivate Taiwan, take firm command of the niche to integrate both sides of Taiwan Strait, i.e., Taiwan and China plus Hong Kong and reach out to all markets, both at home and the world over, in the futures horizons. Within the progress scheduled and the scope of laws and ordinances concerned permitted by the competent authorities of the government, we shall strike for new fountainheads of profits and growth and fulfill the long-programmed Greater Region of China blueprints through our consistent powers of enforcement.

Attachment Three

Audit Committees' Review Report

(2015) Cai-Shen-Bao-Zi No. 14003074

To the Board of Directors and Stockholders of Yuanta Futures Co., Ltd.

We have audited the accompanying proprietary balance sheet of Yuanta Futures Co., Ltd. (formerly, Polaris Futures Co.) as of December 31, 2014 and 2013 and the related proprietary statements of income, retained earnings, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the "Rules Governing the Examination of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Yuanta Futures Co., Ltd. as of December 31, 2014 and 2013, and the results of its operations and its cash flows for the years then ended in conformity with the Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants.

Auditor's Report

(2015) Cai-Shen-Bao-Zi No. 14003076

To the Board of Directors and Stockholders of Yuanta Futures Co., Ltd.

We have audited the accompanying consolidated balance sheets of Yuanta Futures Co., Ltd. and its subsidiaries (formerly Polaris Futures Co., Ltd. and subsidiaries) as of December 31, 2014 and 2013, and the related consolidated statements of income, of changes in shareholders' equity and of cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the "Rules Governing the Examination of Financial Statements by Certified Public Accountants" and generally accepted auditing standards in the Republic of China. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Yuanta Futures Co. Ltd. and subsidiaries as of December 31, 2014 and 2013, the financial performance and their cash flows for the January 1 to December 31, 2014 and 2013, in conformity with the "Regulations Governing the Preparation of Financial Reports by Futures Commission Merchants" and "International Financial Reporting Standards", "International Accounting Standards", interpretations and public announcements of interpretations endorsed by the Financial Supervisory Commission of the Republic of China.

Yuanta Futures Co., Ltd. has compiled its 2014 and 2013 individual financial statements, for which we issued unqualified opinion.
